The question of the establishment of the Survey Staff required for Record of Rights work in the Chitaldrug, Bangalore and Shimoga Districts was discussed at the officers' meeting held on the 29th February 1928. The Revenue Commissioner and the Superintendent, Revenue Survey, were requested to send suitable proposals in the matter. The Revenue Commissioner states that the Record of Rights Committee at their meeting discussed this question, and that it was estimated by them that 120 men would be required if the survey operations were not to be prolonged indefinitely. The Survey Superintendent states that he can spare 60 men from this department without unduly hampering phode work of an urgent nature in the districts. The Revenue Commissioner states that 60 fresh men may be entertained and trained for survey work by the Survey Department.

2. The Survey Superintendent who was consulted in the matter has submitted the following detailed proposals:

(1) A class may be opened in Bangalore for training 2 batches of 30 candidates each, in measurement and Plane Table Survey, for a period of 4 months from 30th April 1928.

(2) The training may be continued for one or more similar periods till the required number of trained men is obtained.

(3) No stipend or scholarship will be given for the period of training, but the men who pass successfully and are appointed after the period of training will be started on a pay of Rs. 25 with a fixed allowance of Rs. 10 when on field work.

(4) The appointment will be temporary. When however it is decided to introduce the Record of Rights into all the Taluks of the State, a grade pay of Rs. 30—2—60 for the measurers, and of Rs. 65—5—100 for surveyors or testors, may be fixed, as there would be continuous employment for them for about 20 years to come. Graduates may be started on a pay of Rs. 40.

(5) The minimum qualification for the candidates to be trained will be a pass in the S.S.L.C., exception being however made in the case of men in the Survey Department, and those who have had survey training previously.

3. The above proposals of the Survey Superintendent appear to be suitable and are generally approved.
